

Title: ELA/Literacy Standards Implementation: Evidence Statements

Intended Audience: School/District Leaders, Curriculum Directors, Teacher Leaders, Teachers

Description: The PARCC ELA Evidence Tables were developed in collaboration with many educators to guide the development of the summative assessment. The Evidence Tables are a breakdown of skills for each standard and describe the knowledge and skills that an assessment item or a task elicits from students. They can also be used to guide the development of local curriculum, instruction, and assessment.

Suggested Uses for this Document:

1. District/school leadership may use this document to independently analyze current tasks and the level of rigor that have been developed for use by teachers.
2. District/school leadership may use the evidence statements to consider the types of tasks required for summative assessments and when the tasks are placed into the scope and sequence of curriculum.
3. District/school leadership and/or teachers may use these statements in creating formative assessments tasks that support the year round implementation of standards.

Instructions and Explanation for this Document:

Print the evidence statements/tables out for a specific grade level. Since the evidence tables provide a breakdown of skills within the standards, this tool can help teacher identify what questions, tasks or skills within the evidence statements are a part of their curriculum and which ones may need to be added.
